WORK EXPERIENCE

NDA, *Remote* May 2026 – Present
Freelance IT Recruiter

- Sourcing and screening candidates for senior technical roles (AI/ML, backend architecture) for an international enterprise client.
- Pursuing remotely alongside my MSc studies and communicating with the client on tight timelines.

Qatar Airways, *Doha, Qatar* Aug 2023 – Sep 2026
Cabin Crew Member

- Delivered high-level service to international passengers on almost 500 flights (nearly 3,000 flight hours), following strict safety and compliance procedures in a high-pressure, time-critical operation.
- Worked with a new multicultural crew on almost every flight, quickly building trust and adapting communication style to keep the team effective.
- Calmly resolved sensitive and conflict situations with passengers and colleagues, communicating in English, Ukrainian and German, and received positive feedback from passengers.

Dev.Pro, *Kharkiv, Ukraine (Remote)* Feb 2020 – Jul 2023
Recruiter
Dev.Pro is an IT outsourcing company providing software development teams to US and European clients.

- Owned full-cycle recruitment projects independently (sourcing, screening, stakeholder liaison) across 3–5 concurrent roles at a time, often starting with limited briefs and driving to clarity through research and direct hiring-manager conversations.
- Took initiative to build the Recruiting Researchers team from scratch – owning the project end-to-end and successfully hiring 10 team members.
- Selected as one of 5 to launch a brand-new recruitment vertical from zero; researched the domain independently and delivered 3 of 12 required specialist hires.
- Analysed sourcing and pipeline data to reduce average time-to-hire to 30–35 days, and presented findings and process improvements to hiring managers and stakeholders.

Productech Corporation, *Kharkiv, Ukraine* May 2019 – Jan 2020
Tax Accountant

- Analysed large volumes of financial data and prepared reports across the US, Canada and Europe for fiscal authorities and auditors – early experience translating data into clear, stakeholder-ready reporting.
